Art Unit: 1623

The abstract of the disclosure is objected to because it has not been presented in proper domestic form. Correction is required. See MPEP § 608.01(b).

Claims 1-19 are objected to because of the following informalities: The variable Ri in claims 2 and 6 and R in claim 3, line 1 should be R1. Also “- -” in the chemical name in claim 1, line 2 and second line after the structural formula, claims 7-8, 12-13 and claim 14, lines 1 and 4 after the structural formula 1, should be “-”. Claims 4, 5, 9-11, and 15-19 are objected to as being dependent on objected claims. Appropriate correction is required.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 14 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The preamble of claim 14 reads on a process for preparing the compound of formula 1 wherein R1 is chloro, amino, phenylamino, 2-pyridylamino, 3,4-dimethyl-5-isoxazolylamino and 5-methyl-3-isoxazolylamono, while the claim only shows preparation of the compound wherein R1 is chloro.

Claim 16 provides for the use of a compound according to claim 1, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it

Art Unit: 1623

merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 16 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
